Appendix F: Emergency Telephone Call Tree	23

# INTRODUCTION

This Stand-alone Bushfire Plan is for Harmony Primary School and has been designed to assist staff to prepare for a total fire ban, catastrophic fire danger rating, or a bushfire. Letters to staff and parents are included in the Appendices as well as notices for the closure of the school.

The preparation of this Stand-alone Bushfire Plan should be developed in accordance with the *Emergency and Critical Incident Management Policy* and *The Principal's Guide to Bushfire* with input from local emergency management agencies.

*This sample site plan is designed as a guide only, with a view to achieving consistency across the Department of Education (the Department).*

## Overview

### General Information

This Bushfire Plan (BP) has been developed before 31 August each year after consultation with:

- families of students attending the school;
- members of the emergency services (e.g. Department of Fire and Emergency Services (DFES), Local Emergency Management Committee and/or Community Emergency Services Manager).

The BP includes a checklist of required actions to prepare the school before the bushfire season as per *The Principal's Guide to Bushfire* (refer [Appendix A](#)).

The BP also outlines activities to be undertaken by staff and students at the different levels of a bushfire emergency including:

- on days of Total Fire Ban;
- Catastrophic Fire Danger Rating;
- when there is a fire in the local district;
- when a bushfire is threatening or impacting on the site; and
- during the period immediately after a bushfire has impacted on the site (known as the 'Recovery Phase').

Where applicable, a building is nominated as the **Safer Building Location** building for this school. This building has been prepared for a bushfire emergency and will safely accommodate all persons normally at the school.

### **Distribution**

The Principal must prepare and update the BP in readiness for the bushfire season and then upload it through an electronic portal. Schools will receive a notification when this needs to occur.

The Principal or delegated officer will:

- Publish an up-to-date copy of the school's BP on the school's website no later than 31 August of each year;
- ensure details of the website are provided to families of new students during the enrolment process;
- ensure that all new staff members, relieving staff and visitors are briefed about the requirements of the BP during the site induction process; include bushfire season reminders and information in site newsletters at least three times each term;
- Update the School's Information Booklet in Term 1 each year, including detailed information about actions and procedures included in the BP; and provide all staff members with pre-bushfire season updates during Term 3 and ongoing information and instruction about the contents and requirements of the BP during Term 4 and Term 1 staff meetings.

**The safety and wellbeing of students, staff and visitors is at all times the Department's main priority. Staff are not expected to fight bushfires.**

The school will review (and update where appropriate) the BP on an annual basis.

Any bushfire advice received by the school from DFES, the Local Emergency Management Committee (LEMC), Community Emergency Services Manager (CESM) or external experts needs to be documented identifying the date and source of the advice.

Date of Review	Reviewing Officer	Date Submitted	Next scheduled Review

## COMMUNICATION

There are several levels of communication requirements at school level before, during and after bushfire events.

### Preparing for Bushfire Season

- The Principal must ensure all students, staff (including relief), and parents are aware of the school's BP. A copy of the school's BP should be published on the school's website. Suggested draft text for the school newsletter is available in Appendix B6 of *The Principal's Guide to Bushfire*.
- The Principal should establish contact with emergency services, including DFES, the local volunteer fire brigade, Western Australia (WA) Police, the LEMC and CESM.
- Schools located in bushfire prone areas need to incorporate key bushfire messages in their curriculum. Research shows that if students develop and undertake drills as part of the emergency planning, the message is more meaningful and transfers to the home environment. Additional benefits can be realised by taking activities home that need to be completed and returned. This can serve to increase families' level of awareness and preparedness in regard to bushfire survival plans or household preparedness assessments.
- Communication Plans (including emergency contacts and a Telephone Call Tree) need to be in place for evacuation or planned closure. See [Appendix D](#) for a Communication Plan, [Appendix E](#) for Sample Emergency Contacts and [Appendix F](#) for a Sample Telephone Call Tree.
- The school has an effective working emergency warning or alert system and emergency communication equipment is available and working.
- Schools have in place systems to account for students, staff and visitors in an emergency, such as class rolls (or equivalent) and visitor registers. Consideration should be in place for situations such as a loss of power affecting the ability to print from electronic sources.
- Schools need to identify more than one suitable off-site location, in case one is in the area of the bushfire.
- Arrangements are in place in relation to school buses if appropriate (notification of contractors if pre-emptive closure is invoked; and the availability of buses if off-site evacuation is required).

### Pre-emptive Closure

- The Department Incident Controller (normally the Deputy Director General Schools or delegated officer) will make the decision to close a school based upon advice from emergency services and this will be relayed to the Principal via the Regional Executive Director.
- The Principal is to notify staff and parents of closure using emergency contacts and the Telephone Call Tree. See also the draft letter to parents in Appendix B7 of *The Principal's Guide to Bushfire* advising of pre-emptive closure, being mindful of parents' level of literacy and understanding of English.
- All other necessary parties are advised, including, but not limited to other schools that may have siblings at your school, community users of the school facilities (including before and after school care, or holiday programs), community kindergartens, on site contractors, Parents and Citizens Association (P & C) and school council.
- If appropriate, bus contractors will be contacted to arrange for the evacuation of students to a designated area.
- Notice of Planned Temporary School Closure should be posted as per *The Principal's Guide to Bushfire*, both physically at the school and electronically on the website.

### During Evacuation

- The school will contact the Regional Executive Director and the Department's Media Unit.
- The school will contact parents via phone or email, ensuring they have a mobile phone contact number for the school. It would be preferable that parents restrict calling the school at this time to emergency calls only.
- The school will notify bus contractors and Out of School programs.
- The official broadcaster of Emergency Events is ABC Radio. Your local station will be ABC local Radio. They will provide up to date information during a bushfire event in your area.
- The DFES website provides up to date information on fire events. Refer to <http://www.dfes.wa.gov.au/>.

NOTE: DFES uses the national Emergency Alert system to send community warning messages via mobile telephones in affected areas. (Information can be obtained from <http://www.dfes.wa.gov.au/pages/default.aspx>).

The Principal communicates directly with Regional and Central Office personnel including any media communications. Staff should not comment directly to the media.

### Reopening the School

- The Regional Executive Director is to advise the Principal when the school can re-open.
- Parents need to know when the school is re-opened. In the event of a pre-emptive closure details are contained in the template letter (*Principal's Guide to Bushfire* advising of pre-emptive Closure – Appendix B7).
- The *Notice of Planned Temporary School Closure* should be physically removed from the school premises and website.
- All parties that were advised of closure (e.g. bus contractors, Out of Hours users, community kindergartens, (P&C) and school council should be advised of reopening.

## TYPES OF FIRE EVENT

In the event of a Total Fire Ban, catastrophic weather warning, or bushfire, the **BP** will be activated.

### 1. Total Fire Ban

In the event of a Total Fire Ban, the **BP** will be invoked: (refer to *Principal's Guide to Bushfire* for all procedures). This means:

- no fires must be lit or used in the open air;
- all open fires for the purpose of cooking or camping are not allowed; and
- 'hot work' such as metal work, grinding, welding, soldering, gas cutting or similar is not allowed unless there is an exemption.

DFES advise that chainsaws, plant or grass trimmers or lawn mowers can be used during a total fire ban in suburban or built up areas which are cleared of flammable material, but not in bushland or other areas where their use may cause a fire.

It is also necessary to ensure:

- the equipment or machinery is mechanically sound; and
- all reasonable precautions are taken to prevent a bushfire starting.

It is recommended postponing the activity altogether to minimise the risk of fire.

If a Harvest and Vehicle Movement Ban has not been implemented by your Local Government Authority, the school/college is able to harvest or move vehicles across paddocks for agricultural purposes.

Individuals could be fined up to \$25 000 or jailed for 12 months (or both) if the Total Fire Ban is ignored.

For information on activities that can or cannot be carried out during a Total Fire Ban visit <https://www.emergency.wa.gov.au/#totalfirebans>.  
[https://www.dfes.wa.gov.au/safetyinformation/fire/bushfire/BushfireFactsheets/DFES\\_BushfireFactsheet-Total\\_Fire\\_Bans.pdf](https://www.dfes.wa.gov.au/safetyinformation/fire/bushfire/BushfireFactsheets/DFES_BushfireFactsheet-Total_Fire_Bans.pdf).

If the information required is not available from the website, telephone the Total Fire Ban Information Line 1800 709 355.

This information is also available by visiting [www.dfes.wa.gov.au](http://www.dfes.wa.gov.au) and Emergency WA website: [www.emergency.wa.gov.au](http://www.emergency.wa.gov.au).

## 2. Catastrophic Fire Danger

The Catastrophic Fire Danger Index (FDR) has been added to the Australia-wide FDR system since the 2009 bushfires in Victoria. If a fire starts in catastrophic conditions, its impact potential includes death or injury to people and destruction of buildings.

Category	Fire Danger Index (FDR)	Action
Catastrophic	100+	Schools on Bushfire Zone Register closed on instruction from Deputy Director General Schools, through Regional Executive Director. School to invoke Communication Plan and cancel bus services.
Extreme	75-99	Monitor DFES website
Severe	50-74	Monitor DFES website
Very High	32-49	Normal school operations
High	12-31	Normal school operations
Low-Moderate	0-11	Normal school operations

In the event of a catastrophic weather warning, the **BP** will be invoked as per the flow chart at [Appendix B](#) (refer to *Principal's Guide to Bushfire* for all procedures and sample letters).

### 2.1 Planned Pre-emptive Closure

Regional Executive Directors will contact principals of affected schools directly when a planned (pre-emptive) closure is to be invoked in a particular part of the State. The lead time for a planned closure varies depending on weather patterns, but every attempt is made to give principals as much notice as possible to prepare written documentation for parents. Schools should have Telephone Call Tree in place to provide this information at short notice or after hours.

Once advised that your school is to undertake pre-emptive closure, you need to notify your school community that a closure is imminent. The Principal needs to send letters to parents and provide each staff member with a memo that clearly states when the closure is planned to occur and that the school is on standby. It may be that between declaration of the closure and the day of closure, weather conditions improve sufficiently to remove the need to close and the school can therefore stand down its pre-emptive closure plans.

The Regional Executive Director confirms with the Principal the final decision to close the school no later than **4:30 pm** the day before the planned closure. If weather conditions become less severe after **4:30 pm**, the closure goes ahead regardless, in order to provide a level of certainty to parents.

DFES is the final authority on advice about which schools are in danger and the level of risk at the time. The Deputy Director General Schools makes the final decision as to whether or not a planned closure of public schools is to proceed, based on DFES's advice.

## **2.2 During a Planned Closure**

The Principal must stay informed of the current fire danger rating and any fire activity by monitoring local media (local radio, especially the ABC, and television) and by regularly checking for updates with DFES.

## **2.3 Re-opening School**

Parents need to know when the Catastrophic FDR has been downgraded and that it is therefore safe for their children to return to school after a planned closure. The Template Letter to parents contains advice on how parents can monitor the situation. The school will need to put communication plans in place, such as placing a notice on the school website and providing a phone number for parents to call for information about the reopening of the school. Consideration needs to be given to how parents who do not have internet access or who have diverse needs (e.g. multicultural, special needs) will be provided with information.

## **3. Bushfire**

In the event of a bushfire threatening the school, the school will notify DFES and the BP will be invoked by way of the school siren (or hand-held siren)

Note: add your school's site specific alert tone.

### **3.1. Bushfire – Warnings**

During a bushfire, emergency services provide as much information as possible through a number of different channels.

There are three levels of warning:

- **ADVICE;**
- **WATCH AND ACT;** and
- **EMERGENCY WARNING.**

These change to reflect the increasing risk to life and the decreasing amount of time you have until the fire arrives. Download a copy of DFES bushfire warning table from:

<https://www.dfes.wa.gov.au/safetyinformation/warningsystems/Pages/BushfireWarningSystem.aspx>

If the school is likely to be threatened by the fire, activate the *Emergency and Critical Incident Management Plan* immediately.

#### **3.1.1 Advice**

An **ADVICE** is a fire has started but there is no known danger, this is general information to keep you informed and up to date with developments.

Turn off evaporative air conditioners. Undertake regular checks and patrols of the school for bushfire activity, paying special attention to the evaporative air conditioners.

### 3.1.2 Watch and Act

A **WATCH AND ACT** means there is a possible threat to lives and homes. Conditions are changing, you need to leave the area or prepare to actively defend your home to protect you and your family.

The Principal or delegate should contact the controlling agency to seek instruction as to whether to move students, staff and visitors to their pre-determined Safer Building Location and not an open area on the site or evacuate.

If an order to evacuate is directed by the Incident Controller, the evacuation order will be relayed via a variety of communications methods including the [Bushfire Warning System](#).

It is paramount that schools gather information pertaining to fires from official sources in order to make an informed decision on whether to stay on-site or evacuate off-site.

### 3.1.3 Emergency Warning

An **EMERGENCY WARNING** means you are in danger as your area will be impacted by fire. You need to take immediate action to survive. Listen carefully as you will be advised whether you can leave the area or if you must shelter where you are as the fire burns through your area. An emergency warning may be supported with a siren sound called the Standard Emergency Warning Signal (SEWS). These factors should be reviewed on a regular basis as they may change at any time and without notice.

The Principal or delegate should contact the controlling agency to seek instruction as to whether to move students, staff and visitors to their pre-determined Safer Building Location and not an open area on the site or evacuate.

If an order to evacuate is directed by the Incident Controller, the evacuation order will be relayed via a variety of communications methods including the [Bushfire Warning system](#).

It is paramount that schools gather information pertaining to fires from official sources in order to make an informed decision on whether to stay on-site or evacuate off-site.

### 3.1.4 All Clear

An **ALL CLEAR** means the danger has passed and the fire is under control, but you need to remain vigilant in case the situation changes. It may still not be safe to return home.

## 3.2. Bushfire – Act

### 3.2.1 Response when a bushfire starts and the school is open

#### 3.2.1.1 Evacuation Procedure

School to evacuate off-site on advice from DFES

**Has the evacuation to the off-site safer location been approved and how long will it take to get there?**

School to evacuate off-site on advice from DFES

This site will be the school oval to the western end as helicopters could be flying over the lake to fill up with water. (The lake is at the eastern boundary of the oval).

- All classes remain with their teachers and allocated education assistants.
- All other staff and visitors report to the Front Office.
- Teachers account for each child and identify students and support staff with known respiratory conditions.
- Doors, roof vents and windows must be closed **and evaporative air coolers turned off**.
- Students and staff are to remain in classrooms unless directed otherwise by their fire warden.
- Fire wardens are designated to manage evacuation routes & liaise with staff.
- The Principal and fire warden, will control this response until the arrival of DFES or emergency services who will then take over.
- Students and adults with known respiratory conditions will be identified and given special consideration.

#### Parent Access

Parents will be informed when and where to pick up students upon advice from the school.

#### 3.2.1.2 Safer Building Location Procedure – if evacuation is not possible

- School to remain on site on advice from DFES.
- All classes remain with their teachers and support staff.
- All classes to relocate to the designated Safer Building Location (**add name to plan of Safer Building Location within school**). See [Appendix C](#) for a sample safer location evacuation plan.

**All classes in yellow and red block remain with their teachers and allocated education assistants.**

**All classes in the orange block move to yellow block. LA 12, 13 & 15 move through LA 11 or 10's door and LA 14, 16 & 17 move through the entrance to the wet area. The classes from green block move to red block, LA 25 & 26 through the door at the wet area and LA 27 through LA 18 or 19.**

**All classes in transportable buildings to be relocated to yellow block, through the door at LA 8.**

**All classes in the music or visual art rooms go to yellow block.**

**Classes on the oval go to the administration block.**

**People in the dental therapy unit, canteen and library move to the administration block.**

**Students in instrumental music lessons go to the red block.**

- All other staff and visitors report to the Front Office.
- Teachers account for each child and identify students and support staff with known respiratory conditions.
- Deputy Principals check outside toilets on their way to designated building.
- Doors, roof vents and windows must be closed and **evaporative air coolers turned off**. Students and staff are to remain in classrooms unless directed otherwise by the fire warden.
- Fire wardens are designated to manage evacuation routes and liaise with staff.
- The Principal and fire wardens will control this response and must liaise with DFES or emergency services as soon as possible.
- Students and adults with known respiratory conditions will be identified and given special consideration.

- Deputy Principals and Principal to carry mobile phone with them when moving out to blocks so as to communicate with the Fire Warden.

### **Parent Access**

Parents advised **NOT** to pick up students and to monitor local media for specific access information.

### **3.2.2 Response when a bushfire starts and the school is closed**

If the Department's Incident Controller makes a decision on school closure-based advice from emergency services, the Regional Executive Director will inform the Principal of closure.

The Principal is to notify staff and parents of the closure using the emergency contact list (see [Appendix D](#) for a Sample Communication Plan).

The Department's Incident Controller will, in consultation with the Regional Executive Director, identify alternative accommodation of students and staff, if required. The Department's Media Unit will utilise media outlets to make public announcements of school closures, temporary alternative accommodation and contact number(s) for further information.

The Department's Incident Controller (in consultation with DFES) will inform the Regional Executive Director when the school can reopen, who will inform the Principal accordingly.

### **3.2.3 Recovery**

The priorities for the school during recovery are:

- Health and safety of individuals;
- Social recovery; and
- Physical (structural) recovery.

### **General**

- When possible, return to normal routine as soon as possible.
- Attend to staff and student welfare, considering counselling support.
- Provide information for families and the community of any impact (including if there is none) on the school and school routine following the bushfire.
- Undertake a check of any equipment or stock used and arrange for replacement/replenishment.
- Address any physical damage to the school, isolating areas if required and, if necessary, relocate to alternative accommodation. Contact the Department of Finance's Building Management and Works to commence repairs. The Department should be advised of any damage caused by the bushfire.
- Attend to security if necessary (Contact Manager, Security and Emergency Management at Central Office on 9264 4825).
- Manage administrative details including insurance.

### **Debrief**

- What worked, what didn't?
- Was anything overlooked?
- What could you and your staff do better next time?
- Should any delegation be reassigned?
- If changes are made, incorporate them into the BP and advise the appropriate parties including staff and other authorities.
- Share the knowledge with other schools.
- Test the revised BP and procedures.

For further details and contacts refer to the Recovery Section of the *Emergency and Critical Incident Management Plan* and *The Principal's Guide to Bushfire*.

## APPENDICES

### Appendix A: COMPLIANCE: Bushfire Preparation Checklist

 <b>Department of Education</b>	Bushfire Preparation Checklist for the Bushfire season
--	--

**Principals should be thoroughly familiar with their current plans for dealing with bushfires.**

**All staff members should be aware of their responsibilities in accordance with the Stand-alone Bushfire Plan**

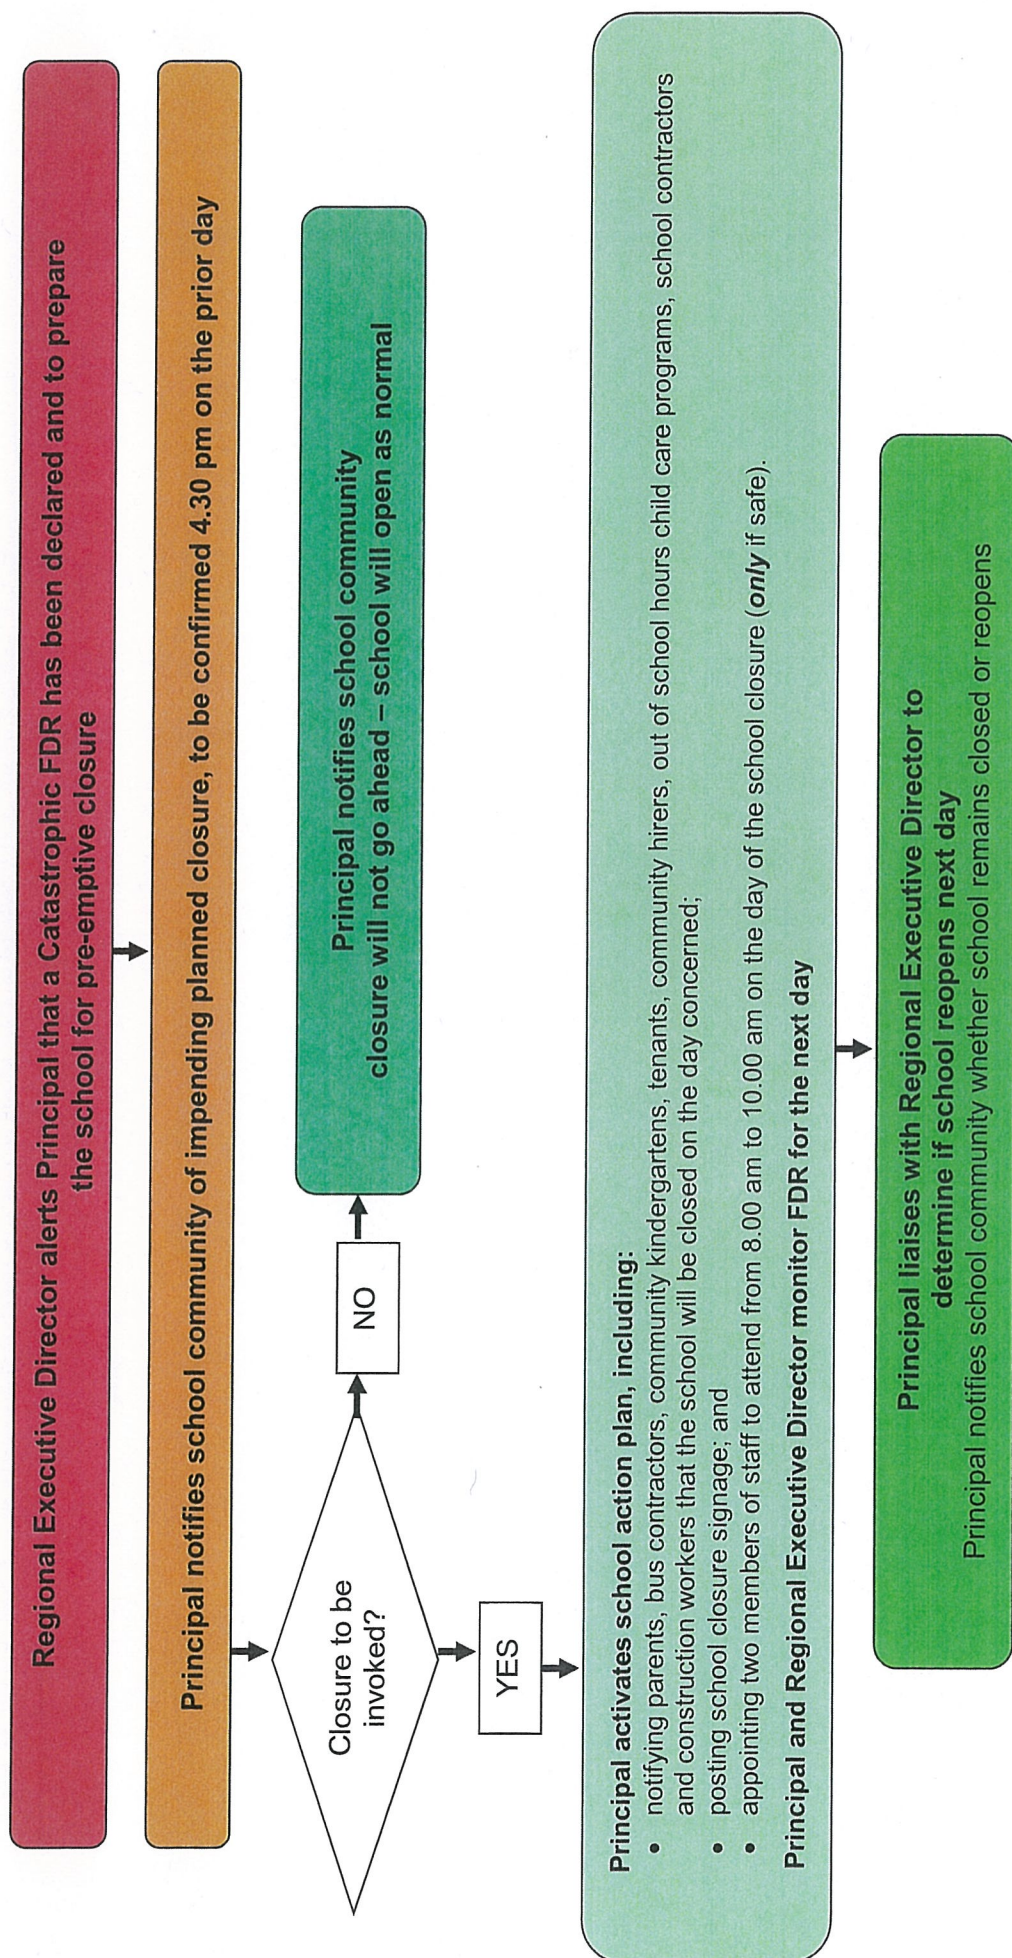

MANAGEMENT ACTIVITIES		
Tick when task has been completed, or write NA if not applicable(□)		Evidence
<p>The School <i>Emergency and Critical Incident Management Plan</i> provides a plan for dealing with bushfires.</p> <p><b>Schools on the Bushfire Zone Register must also have a separate Stand-alone Bushfire Plan.</b></p>	Yes	S:\AdminShared\Administration Staff\700 Premises\700 School+Bushfire+Stand-alone+Plan 2019 February
Principal is thoroughly familiar with the school's Stand-alone Bushfire Plan.	Yes	Plan reviewed February 7 <sup>th</sup> February 2019
Students, staff, relief staff and parents/carers have been made aware of the School's Stand-alone Bushfire Plan.	Yes	Staff via Daily Notices Parents Via Newsletter/Facebook
The Stand-alone Bushfire Plan has been reviewed prior to the bushfire season (31 August each year) and a copy uploaded to the <a href="#">electronic portal</a> and on the school's website.	Yes	
<p>Schools on the Bushfire Zone Register have appointed a school emergency liaison officer. The appointed liaison officer may be required to relocate during an emergency to the Incident Control Point to provide an information conduit between the school and the controlling agency.</p> <p>The Principal and liaison officer have established contact with local emergency services, DFES, the Department of Biodiversity, Conservation and Attractions – Parks and Wildlife Services (if relevant), the local volunteer fire brigade, WA Police, Local Emergency Management Committee (LEMC), local government representative or Community Emergency Services Manager (CESM) (if there is one for the area), and incorporated their feedback into the plans (as required).</p>	Yes	Kathryn Scott
Emergency services, (outlined above), are informed of your nominated pre-determined Safer Building Location and not an open area as part of your Emergency Critical Incident Management Plan procedures.	Yes	
Schools on the Bushfire Zone Register understand the <a href="#">bushfire warning system</a> and the Emergency <a href="#">Alert telephone warning system</a>	Yes	

<b>MANAGEMENT ACTIVITIES</b>		
Tick when task has been completed, or write NA if not applicable( <input type="checkbox"/> )		<b>Evidence</b>
Schools on the Bushfire Zone Register need to incorporate key bushfire messages in the curriculum.	Yes	Classrooms Term One 2019
Schools know how to turn off evaporative air conditioner units, including awareness of the location of the switches, and how to close roof vents.	Yes	
Communication plans (include Telephone Call Tree – see <u>Appendix F</u> ) are in place for directed evacuation or planned closure	Yes	
Evacuation drills practised prior to the start of the bushfire season and at least once per term during the bushfire season. The bushfire season typically runs from late August to April in southern WA and June to late October in northern WA. Note: this is a minimum of three drills per year.	Yes	
School has a correctly functioning emergency warning or alert system.	Yes	
Emergency communications equipment is available e.g. mobile telephones, hand-operated fire alarm (portable siren), portable radios and spare batteries.	Yes	
Class rolls and visitor register (or equivalent) are readily accessible in an emergency to account for students, staff and visitors.	Yes	
First aid equipment is available and staff members trained in first aid have been identified.	Yes	
Evacuation kit should be checked at least once per term.	Yes	
Arrangements are in place in relation to school buses (notification of contractors if pre-emptive closure is invoked; availability of buses if off-site evacuation is required)	N/A	
Procedures are in place to restrict use of machinery (e.g. angle grinders, mowers, and machinery with internal combustion engines) in close proximity to bushfire fuels where they may start a fire on severe fire danger days.	N/A	
A <b>Safer Building Location</b> within the school building and not open area should be identified and prepared in the event that an off-site evacuation is not possible (Refer page 5 of <i>The Principal's Guide to Bushfire</i> ).	Yes	
More than one suitable <b>off-site location</b> needs to be identified, in case one of the sites is under threat from the bushfire.	Yes	
Asset Protection Zone (20 metre radius), cleared of all rubbish, long dry grass, bark and flammable materials.	Yes	

## Appendix B: Catastrophic Event Flow Chart

In the event of a catastrophic weather warning the **Bushfire Plan** will be invoked as per the following flow chart: (refer to *The Principal's Guide to Bushfire* for all procedures and sample letters)

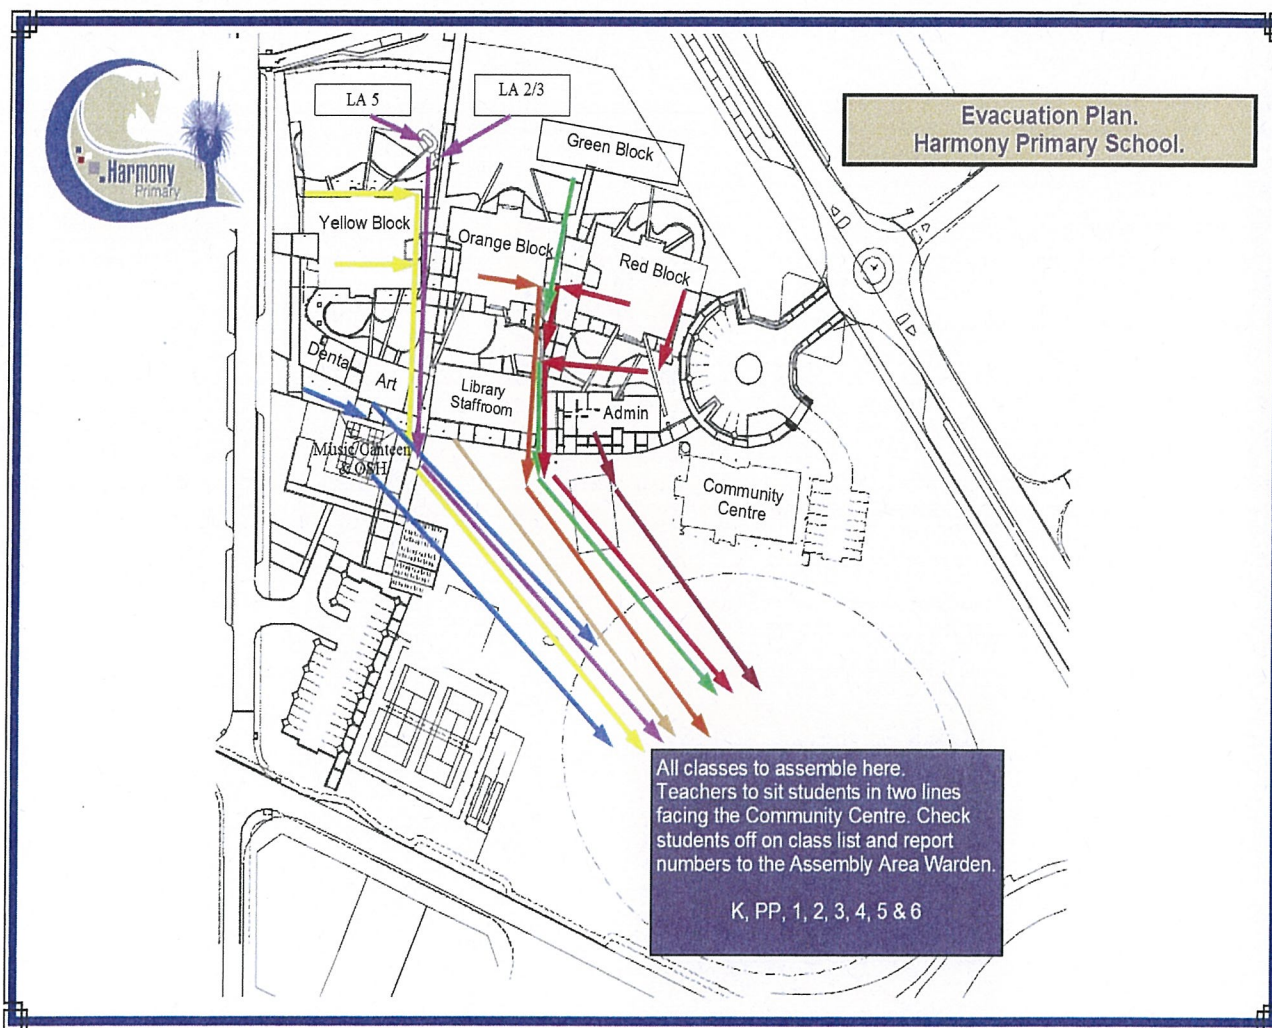

### PRINCIPAL'S RESPONSE TO Catastrophic Fire Danger Rating (FDR)

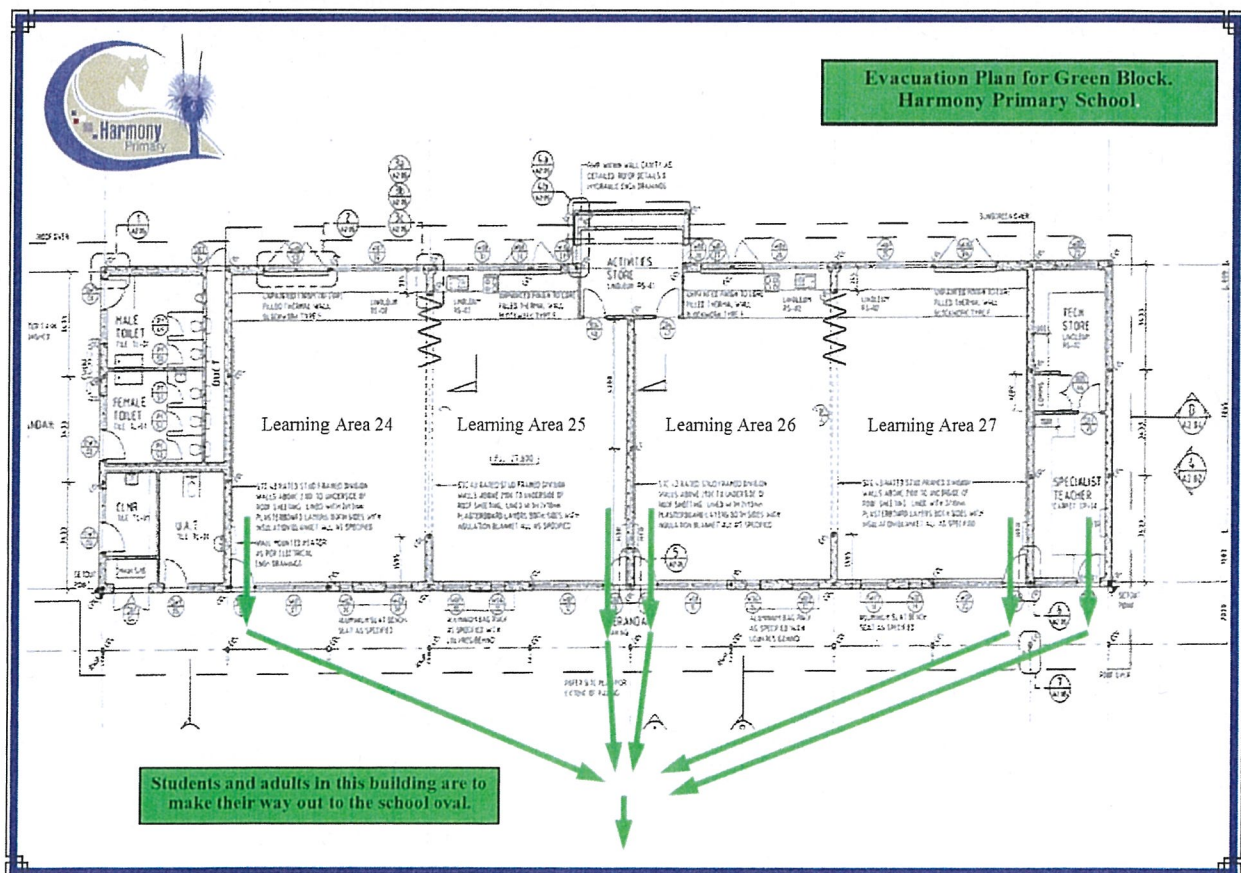

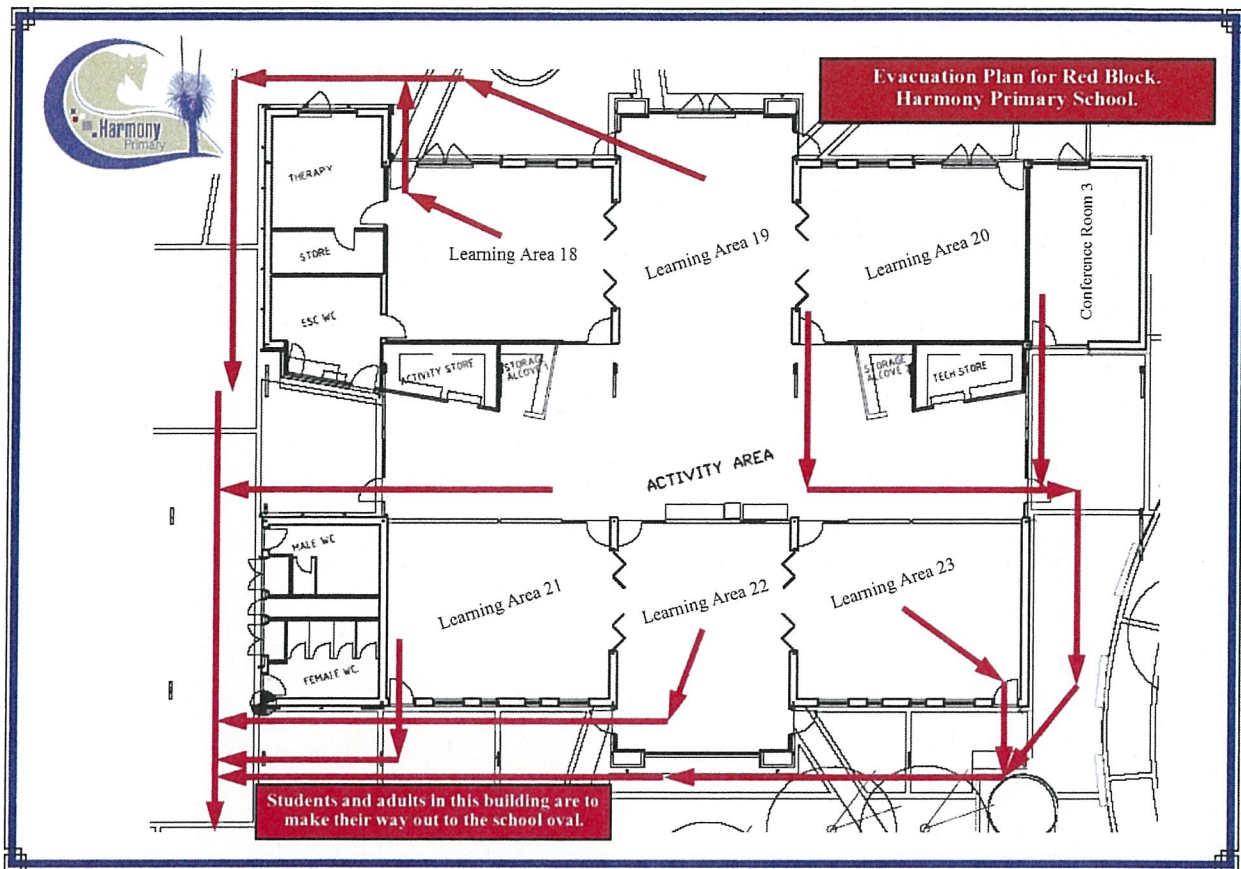

### Appendix C: School Site Plan and Evacuation and Invacuation Routes

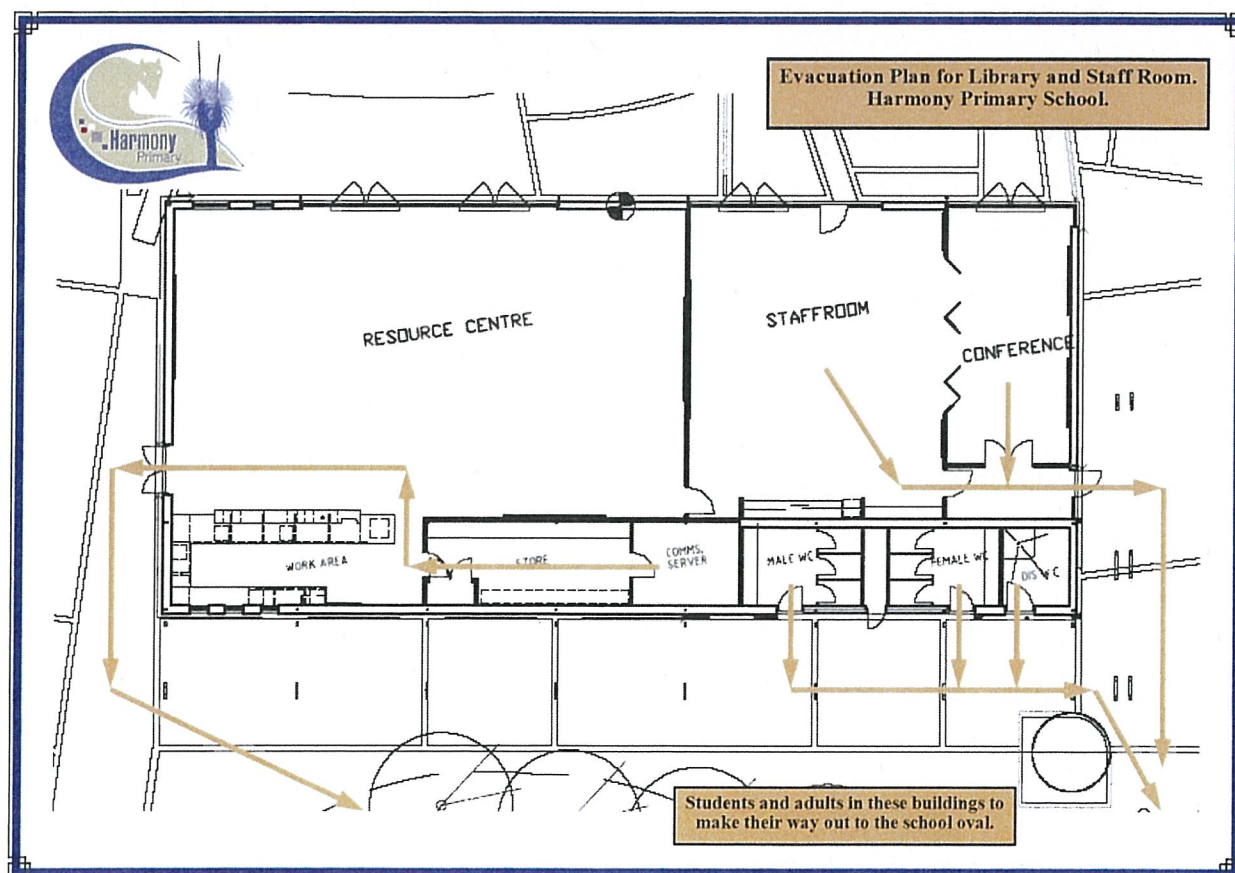

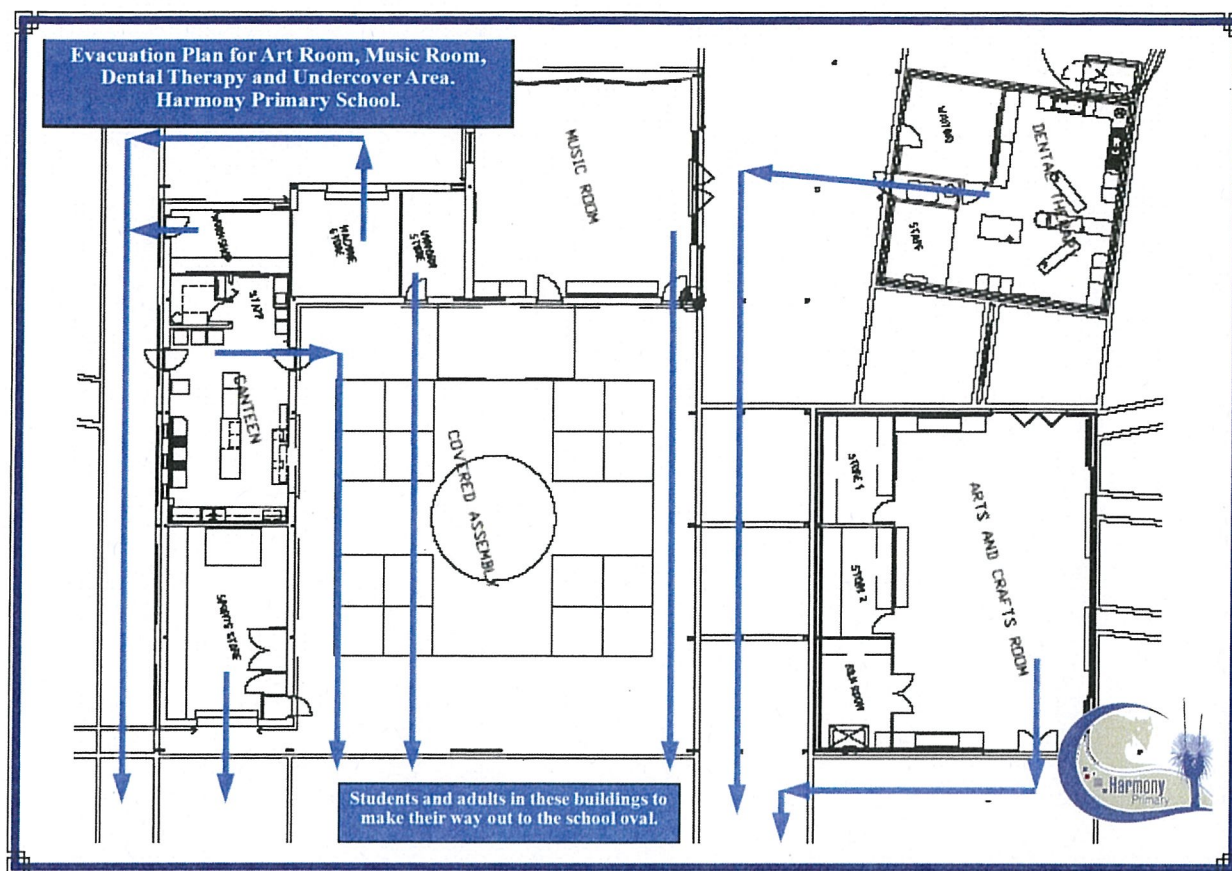

Insert your school's map here – include the safer location/s, location of fire hydrants, electrical switch boards, phones and communication board, first aid and evacuation kits.

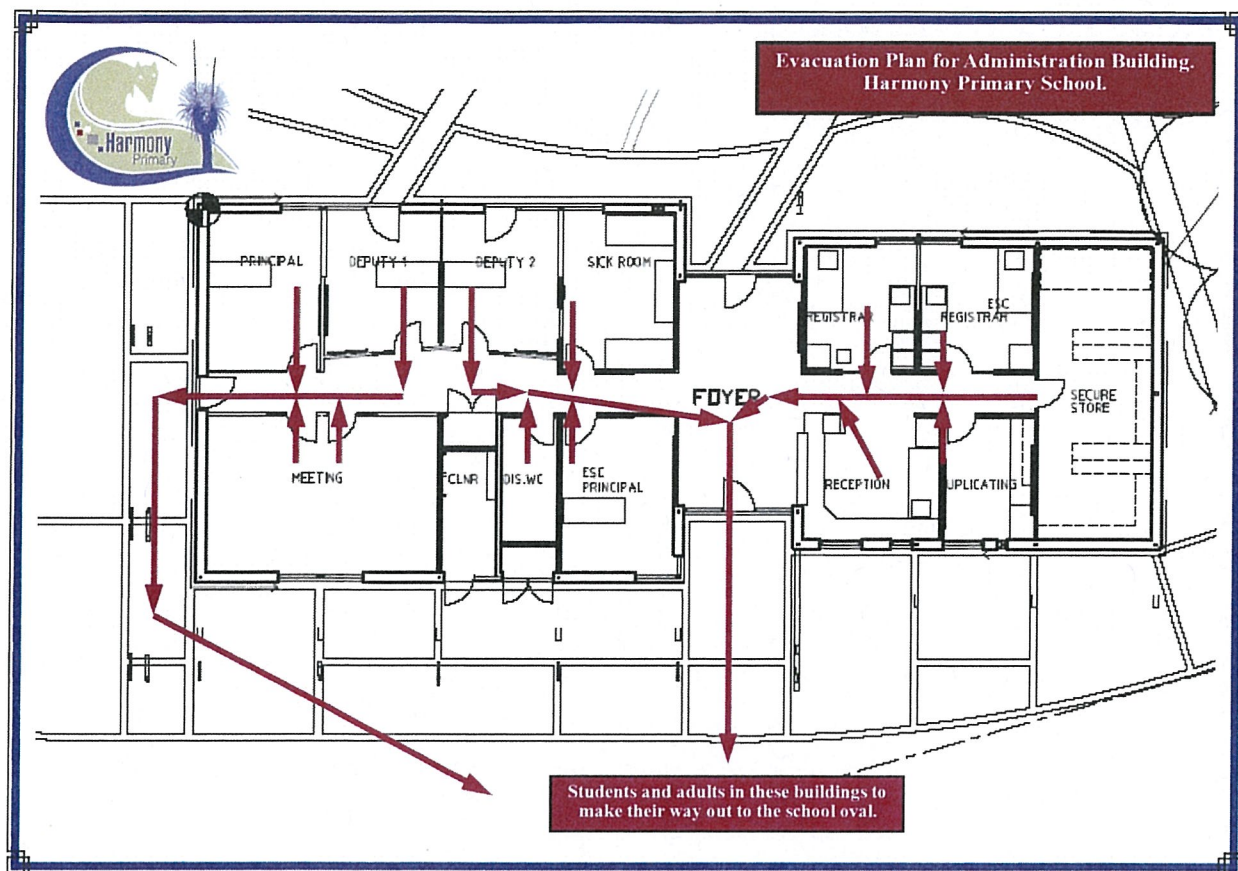

#### Evacuation Plans - Harmony Primary School

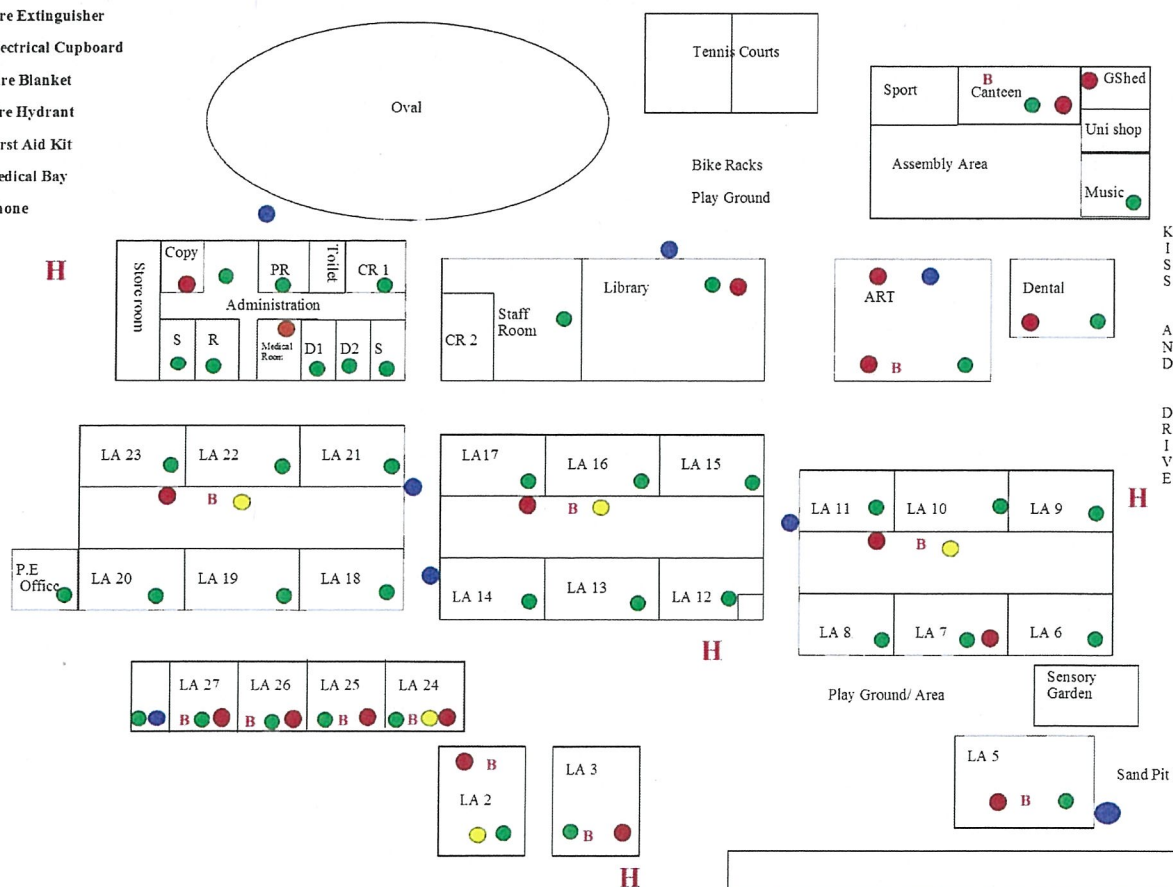

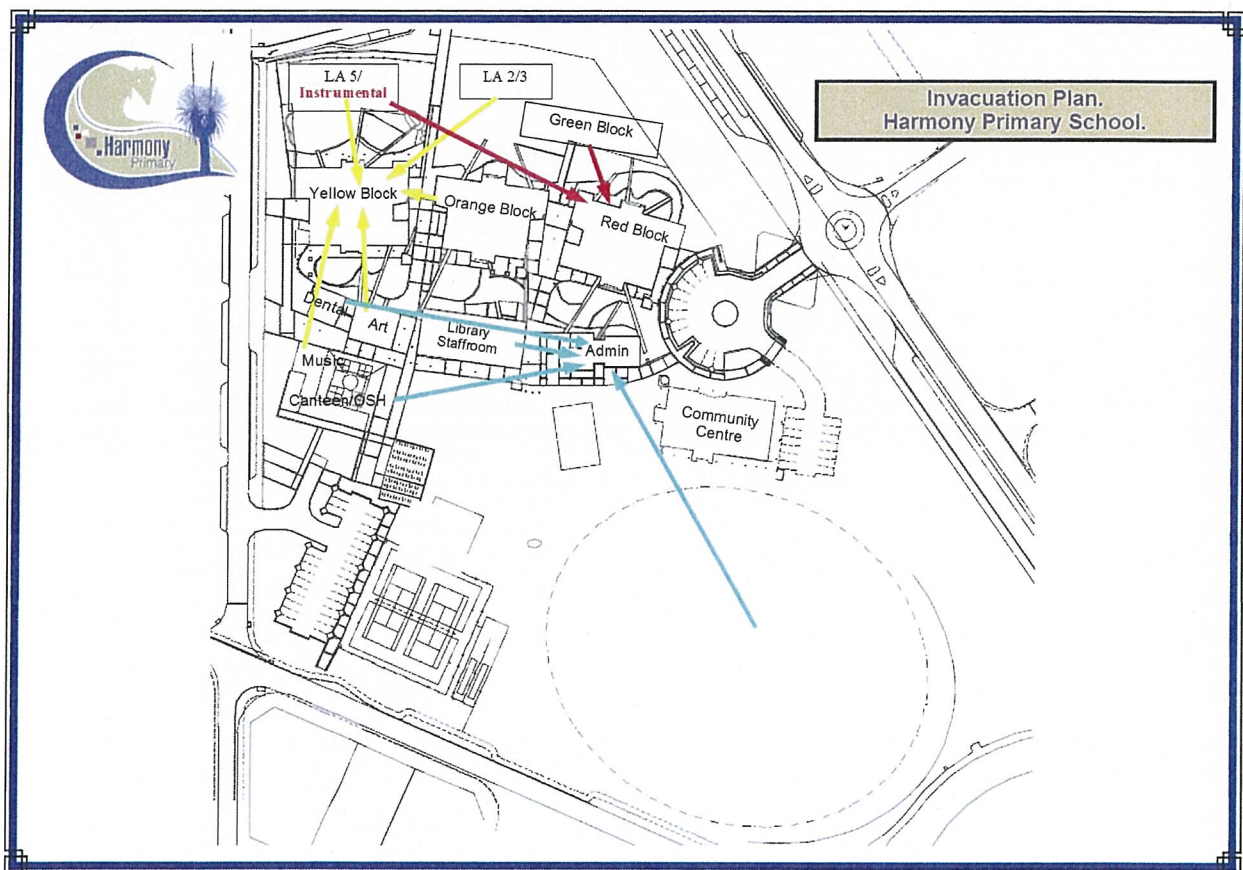

## Harmony Primary School – Safe Locations

- Fire Extinguisher
- Electrical Cupboard
- B Fire Blanket
- H Fire Hydrant
- First Aid Kit
- Medical Bay
- Phone

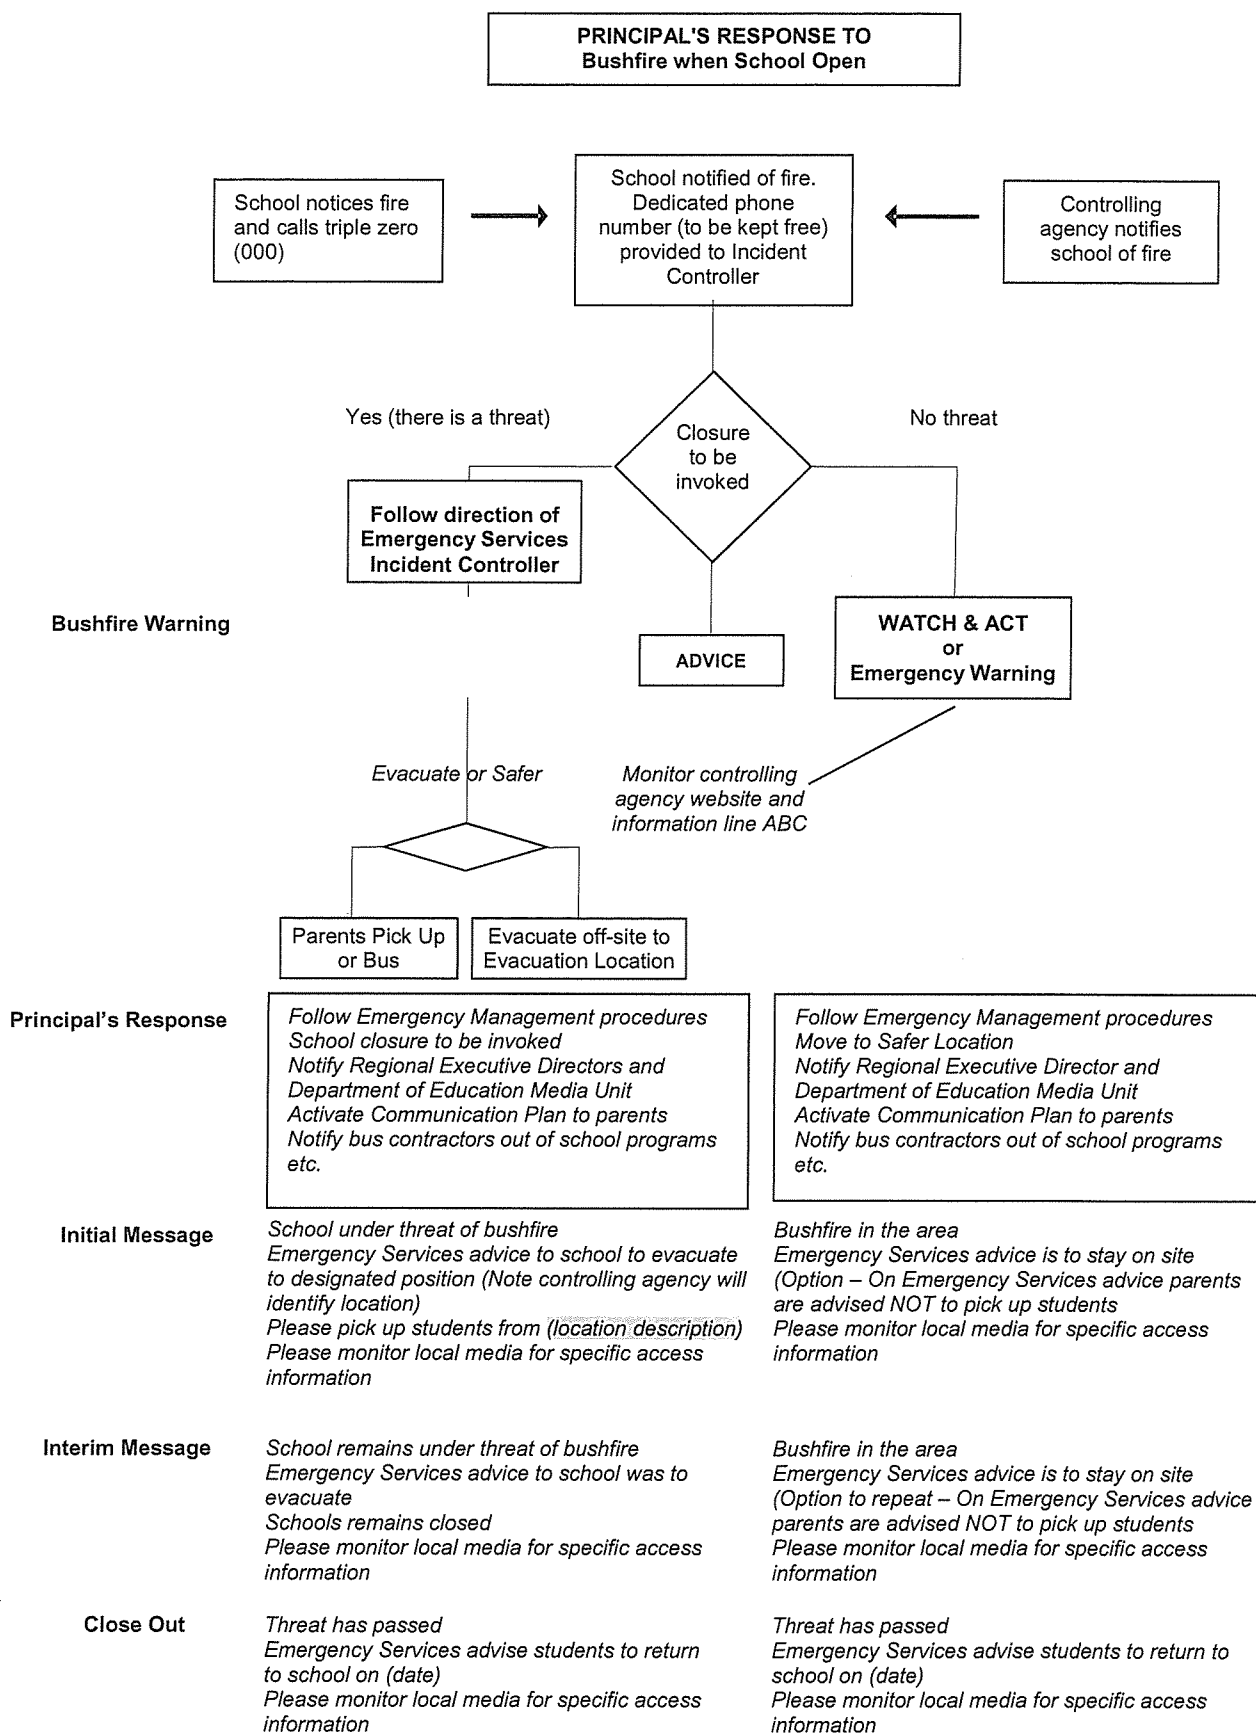

## Invacuation Plan - Harmony Primary School

- All classes in yellow and red block remain with their teachers and allocated education assistants.
- All classes in the orange block move to yellow block and the classes from green block move to red block.
- All classes in transportable buildings to be relocated to yellow block.
- All classes in the music and/or visual art rooms go to yellow block.
- Classes on the oval go to the administration block.
- People in the dental therapy unit, canteen and library, OSH Club (if on site) move to the administration block.
- Students in instrumental music lessons go to the red block.
- All other staff and visitors report to the administration block.
